Cycle 1: L-bracket (P1)
H1: a spread, eight-marker bracket reaches a mean overlay error below 2 mm
1
Select layout (Fitzpatrick TRE, V0 to V3)
2
Build P1 (V3 bracket)
3
Test P1 (ATP-1 to 8)
4
Limits found: 5 of 56 poses, dead zone
limits of P1 set the design goals for P2
Cycle 2: dome (P2)
H2: a dome widens coverage and survives hands, at the same accuracy
1
Fit simulator to P1 data
2
Design dome (D1 to D4)
3
Build P2 (D1_final)
4
Test P2 (predictions, ATP-1 to 8)
